

Assessment Pricing Update

New pricing applies from 1 October 2026

Contact us before 1 October 2026 to secure the current rates, even if your assessment takes place after this date.

Why are assessment prices changing?

Like many providers, Adept Education is experiencing increased operating costs. Updating our pricing allows us to keep pace with rising costs while continuing to provide thorough, high-quality assessments and personalised support.

Will Adept Education remain competitively priced?

Yes. Even after this adjustment, Adept Education remains very competitively priced within the assessment market, with some comparable providers charging considerably more.

When will the new prices take effect?

The new rates apply to new clients who contact Adept Education from 1 October 2026 onward.

What if I make contact before 1 October?

Anyone who contacts Adept Education before 1 October 2026 will retain the current pricing, even if their assessment is scheduled for a later date.
